# Water & Wastewater Digest

Vol. XXVIII, No. 1

January/February 2003

## Status of Bacti Sample Holding Times

The Missouri Department of Natural Resources' Public Drinking Water Program recently hosted stakeholder meetings statewide to discuss the issue regarding bacteriological holding times. There has been an increased emphasis on getting bacteriological samples analyzed within 30 hours.

The reason behind the shorter holding times is concern that coliforms die off over time, therefore, potentially giving false negative results. In effect, sample results may indicate a sample is negative but in fact the sample contained total coliforms or E coli when collected. There are some areas of the state that have a difficult time getting samples to the state public health labs via U.S. Postal Service within 30 hours.

Historically, the state labs, and private laboratories that were certified by the state to perform bacteriological samples, have accepted bacteriological samples with a holding time up to 48 hours. The U.S. Environmental Protection Agency (EPA) published the Manual for the

Certification of Laboratories Analyzing Drinking Water, Fourth Edition, in March 1997. The fourth edition followed the guidelines in the Standard Methods for Examination of Water and Wastewater, 18th Edition, which required bacteriological samples for total coliforms, E coli and fecal coliforms not to exceed 30 hours from the time of collection to the time of analyses. When EPA audited the state labs, they were not in compliance with the 30 hour holding time requirement and were cited for the deficiency in the audit.

For a significant number of water systems that use one of the state labs, there will be a fundamental change in how their compliance samples are delivered. The Missouri Department of Health and Senior Services (DHSS) is in the process of expanding their courier service to include stops in most counties, and some counties will have multiple stops. There will usually be a stop at each county seat. Water samples that are dropped off at a DHSS courier pickup will be delivered to one of the state labs the next day. Other

options available to water systems include other couriers (UPS, Fed Ex, etc.), delivering samples themselves or using a local private lab.

Information will be sent to the water systems when the courier stops and pickup times are formalized. There will be no charge for water systems to use the courier service.

It will run Monday-Friday, but just as before, samples should not be collected and sent on Fridays or on state holidays. It is still more than a year or so before the state public health laboratories will reject any samples over 30 hours. The informal stakeholder meetings were the first step in amending the state regulations to meet the 30 hour holding times. If you have any questions or would like to inquire about the transit time your bacti samples now have, you may contact the Public Drinking Water Program at (573) 751-5331.

## Safe Drinking Water Commission 2003 Schedule

The Safe Drinking Water Commission has tentatively scheduled meetings for the following dates in calendar year 2003. Meetings are usually held in Jefferson City. For more information or to be placed on a mailing list, please contact Ms. Cynthia Bowser at (573) 751-5331.

March 27  
May 22  
July 24  
September 4  
November 13

**Department of Natural Resources  
Operator Certification and Training Unit  
2003 Examination Schedule**

<b>Date</b>	<b>Session No.</b>	<b>Location(s)</b>	<b>Filing Deadline</b>
March 3	7	Powder Valley Nature Center, St. Louis	February 3
March 4	8	Conference Center, 1738 E. Elm, Jefferson City	February 4
April 1	9	Southeast Regional Office, Poplar Bluff	March 1
	10	Southwest Regional Office, Springfield	
	11	Conference Center, 1738 E. Elm, Jefferson City	
May 6	12	Northeast Regional Office, Macon	April 6
	13	Kansas City Regional Office, Lee's Summit	
	14	Conference Center, 1738 E. Elm, Jefferson City	
June 2	15	Powder Valley Nature Center, St. Louis	May 2
June 3	16	Conference Center, 1738 E. Elm, Jefferson City	May 3
July 1	17	Southeast Regional Office, Poplar Bluff	June 1
	18	Southwest Regional Office, Springfield	
	19	Conference Center, 1738 E. Elm, Jefferson City	
August 5	20	Northeast Regional Office, Macon	July 5
	21	Kansas City Regional Office, Lee's Summit	
	22	Conference Center, 1738 E. Elm, Jefferson City	
September 2	23	Conference Center, 1738 E. Elm, Jefferson City	August 2
September 8	24	Powder Valley Nature Center, St. Louis	August 8
October 7	25	Southeast Regional Office, Poplar Bluff	September 2
	26	Southwest Regional Office, Springfield	
	27	Conference Center, 1738 E. Elm, Jefferson City	
November 4	28	Northeast Regional Office, Macon	October 4
	29	Kansas City Regional Office, Lee's Summit	
	30	Conference Center, 1738 E. Elm, Jefferson City	
December 1	28	Powder Valley Nature Center, St. Louis	November 1
December 2	29	Conference Center, 1738 E. Elm, Jefferson City	November 2

Regular wastewater examinations are scheduled for 9:00 a.m., and the water supply examinations are scheduled for 1:00 p.m. **unless otherwise noted on the admission letter.**

**Laboratory Holidays**

The state health laboratory will be closed on the following state holidays:  
 January 20, 2003, Martin Luther King, Jr. Day  
 February 12, 2003, Lincoln's Birthday  
 February 17, 2003, President's Day

**Operator Seeking Position**

20 years experience in wastewater field to include industrial treatment. Has chemistry major, 'A' level wastewater certified. For more information please contact: Richard Willis (816) 931-9789.

## President of QWAL Laboratory Receives 18 Months in Prison for Lab Fraud

On July 16, 2002, Terian Koester, owner/president of Quality Water Analysis Laboratories (QWAL), was sentenced by a U.S. District Court judge within the District of Kansas to 18 months in federal prison for criminally violating the Federal Clean Water Act.

He also admitted to participating in mail fraud by engaging in the fraudulent analysis of wastewater, drinking water and hazardous waste samples sent to the lab, and then charging customers for improperly obtained results. This fraud took the form of data manipulation (manually changing numbers) and by failing to provide the required quality control as represented to QWAL's customers.

In September 2001, QWAL was served with a criminal search warrant by agents of the U.S. Environmental Protection Agency Region 7 Criminal Investigation Division (EPA-CID). EPA computer and analytical personnel from the National Enforcement Investigations Center, as well as agents from the EPA Office of Inspector General, participated in the search.

Allegations of data falsification were substantiated by Koester and one of QWAL's lab managers, who admitted to EPA agents that they had falsified data in the past, dating back several years.

At the time of the search, QWAL was on a list of pre-qualified laboratories used by EPA Region 7 to perform analyses at Superfund sites. It was removed from the list in September following disclosure of the data falsifications. QWAL's customers, most of whom were notified by EPA of QWAL's problems soon after the search, included the general public, municipalities, commercial concerns and manufacturers.

QWAL, which closed on Sept. 28, 2001, operated a testing lab that provided analyses of air, drinking water, wastewater, hazardous waste and industrial mining samples.

QWAL was certified by the state of Kansas and 14 other states, which based their certification of QWAL upon Kansas' program. Kansas revoked QWAL's certification on Sept. 28, 2001, and the National Environmental Laboratory

Accreditation Conference, which is accepted by 11 states, has removed QWAL from its list of accredited labs.

In issuing its sentence following a full hearing, the court found that Koester, while serving as QWAL's president, knowingly engaged in fraudulent activities involving more than one victim, that such activities resulted in a significant financial loss to QWAL's customers (more than \$250,000), and that Koester abused a position of trust in doing so. In addition to the 18-month sentence, Koester was sentenced to two years supervised release after his prison term. Koester was also ordered not to work in or supervise an analytical laboratory during the period of supervised release.

## Jerry Lane Receives W. Victor Weir Award

Public Drinking Water Program Director Jerry Lane was recently given the W. Victor Weir award for outstanding and devoted service to the public in the field of water and wastewater management and operation. Lane was presented the award at the annual Missouri Water and Wastewater Conference. The award came as a surprise to Lane who had been told he would be the presenter of an award, not the recipient.

The W. Victor Weir award is given annually and was established to commemorate the memory of the man whose name it bears. The award is presented for, "outstanding and devoted service to the public in the field of water or

wastewater management and operations, and for contributions therein which emulate and commemorate the accomplishments, the good humor, and the high professional standards which characterized the life of W. Victor Weir."

William Victor Weir is remembered with love and respect by all who knew him. He was past president of St. Louis County Water Co., a past president of the Missouri Water and Wastewater Conference, past president of the Missouri section American Water Works Association (AWWA) and the national AWWA.

# Drinking Water Rules Update

	<b>Status of EPA Rule</b>	<b>Status of State Rule</b>
<b>Arsenic</b>	EPA final rule was published January 22, 2001 Federal Register (66 FR 6976). Effective date delayed until Feb. 22, 2002. Compliance date is Jan. 22, 2006. Information on EPA's rule is available on-line at <a href="http://www.epa.gov/safewater/arsenic.html">http://www.epa.gov/safewater/arsenic.html</a> .	Proposed amendments adopting EPA's Arsenic rule are expected to be published in the March 18, 2003, Missouri Register. Information on the state rule is available at <a href="http://www.dnr.state.mo.us/wpscd/pdwp/draft/Draft.htm">http://www.dnr.state.mo.us/wpscd/pdwp/draft/Draft.htm</a> .
<b>Coliform Sample Holding Time</b>	The EPA requirement for coliform sample holding time to be no more than 30 hours is found at 40 CFR 141.21(f)(3).	Stakeholder meetings have been held in each region. A draft rule and implementation plans are under development.
<b>Design Guide Revisions (Guidance Document)</b>	(Not applicable.)	Stakeholder workgroup meetings are being held to discuss issues identified during regional stakeholder meetings in 2002. The current draft of the revised guidance is available at <a href="http://www.dnr.state.mo.us/wpscd/pdwp/draft/Draft.htm">http://www.dnr.state.mo.us/wpscd/pdwp/draft/Draft.htm</a> .
<b>Filter Backwash Recycling Rule</b>	EPA final rule was published in the June 8, 2001, Federal Register (66 FR 31086). Information on EPA's rule is available on-line at <a href="http://www.epa.gov/safewater/mdbp.html">www.epa.gov/safewater/mdbp.html</a> .	The state rule became effective Nov. 30, 2002 (10 CSR 60-4.050). The final rule is available at: <a href="http://www.sos.state.mo.us/adrules/csr/current/10csr/10c60-4.pdf">http://www.sos.state.mo.us/adrules/csr/current/10csr/10c60-4.pdf</a>
<b>Ground Water Rule</b>	EPA's final rule is under development and may be promulgated in March 2003. Information on EPA's rule is available at <a href="http://www.epa.gov/safewater/gwr.html">http://www.epa.gov/safewater/gwr.html</a> .	(EPA's rule has not been finalized.)
<b>Long-Term 1 Enhanced Surface Water Treatment Rule</b>	EPA final Long-Term 1 Enhanced Surface Water Treatment Rule was published in the January 14, 2002, Federal Register. Information on EPA's rule is available at <a href="http://www.epa.gov/safewater/mdbp.html">http://www.epa.gov/safewater/mdbp.html</a> .	Proposed amendments adopting LTIESWTR are expected to be published in the March 18, 2003, Missouri Register. Information on the draft rule is available at <a href="http://www.dnr.state.mo.us/wpscd/pdwp/draft/Draft.htm">http://www.dnr.state.mo.us/wpscd/pdwp/draft/Draft.htm</a> .
<b>MTBE</b>	EPA is considering proposing a secondary standard for MTBE in drinking water. The schedule has not been determined. Information on MTBE is available at <a href="http://www.epa.gov/safewater/mtbe.html">http://www.epa.gov/safewater/mtbe.html</a> .	

(continued on Page 5 ...)

## Drinking Water Rules Update ...

(... continued from Page 4)

	<b>Status of EPA Rule</b>	<b>Status of State Rule</b>
<b>Public Notification</b>	EPA final rule was published in the May 4, 2000, Federal Register (65 FR 25982). PN handbook for utilities published and distributed on September 15, 2000. Information on the EPA rule and handbook is available on-line at <a href="http://www.epa.gov/safewater/pn.html">http://www.epa.gov/safewater/pn.html</a> .	A proposed rulemaking to adopt EPA's Public Notice Rule is expected to be published in the March 18, 2003, Missouri Register. Information on the draft rule is available at <a href="http://www.dnr.state.mo.us/wpscd/pdwp/draft/Draft.htm">http://www.dnr.state.mo.us/wpscd/pdwp/draft/Draft.htm</a> .
<b>Radionuclides</b>	EPA final rule was published in the December 7, 2000, Federal Register (65 FR 76708). Information on EPA's final rule is available on-line at <a href="http://www.epa.gov/safewater/radionuc.html">http://www.epa.gov/safewater/radionuc.html</a> .	The state rule became effective Nov. 30, 2002 (10 CSR 60-4.060). The final rule is available at: <a href="http://www.sos.state.mo.us/adrules/csr/current/10csr/10c60-4.pdf">http://www.sos.state.mo.us/adrules/csr/current/10csr/10c60-4.pdf</a> .
<b>Radon</b>	EPA's final rule is expected in fall 2003. Information on EPA's proposed rule is available on-line at <a href="http://www.epa.gov/safewater/radon.html">http://www.epa.gov/safewater/radon.html</a> .	(EPA's rule has not been finalized.)
<b>Six-Year Review</b>	The Safe Drinking Water Act requires EPA to review and revise, if appropriate all existing regulations every six years. The current schedule calls for preliminary decisions by April 2003 and final decisions by August 2003.	(EPA's rule has not been finalized.)
<b>Source Water Protection Loans</b>	The Safe Drinking Water Act allows up to 15% of the Drinking Water State Revolving Fund to be set aside for source water protection loans for purchase of land and easements to protect source water and for development/implementation of local source water protection petition initiatives.	Plans for development of a state rule for source water protection loans are under development.
<b>Stage 2 D/DBP Rule and Long-Term 2 ESWTR</b>	EPA's Stage 2 DBP and LT2ESWTR proposed rules are scheduled to be published in December 2002. Information on these rules is available on-line at <a href="http://www.epa.gov/OGWDW/mdbp.html">http://www.epa.gov/OGWDW/mdbp.html</a> .	(EPA's rule has not been finalized.)
